  - Three technical meetings (Tuesday 8am-9am)
- Created our Yodiz Board with first story cards
  - Many of our first story cards are Spikes, which are stories that might not be directly apart of development, but a way for us to try out the technology we have been given, which will help give us a perspective when continuing this design and development

## Pending Issues

### Current Sprint Board

- SPIKE: Look into Swift for Nearby Interactions
- SPIKE: Watch UWB Kit Training videos
- Download MPLAB X IDE (make this better name?)

- SPIKE: Research Mobile Knowledge
- Notes from this past week(s)
  - Some of the things we were waiting on involve getting the hardware, which we will get 9/27 in the evening
  - We also had half of the team out for the GHC, so that was a bit of a blocker for those members

#### **Plans for Upcoming Reporting Period**

- Watch UWB Kit training videos
- Toy around with hardware received on 9/27
